

M1 FRAC PLUG

SHORTEST IN ITS CLASS.
IN THIS CASE, LESS IS MORE.

Shortest Full Composite Top-Set Frac Plug.

Introducing the Yellow Jacket exclusive, patent pending M1 Frac Plug, the shortest top-set full composite frac plug on the market.

Less is more: less material, less cost, more advanced.

M1 Frac Plug

- Shortest top-set full composite frac plug on the market
- Drill out in 7 minutes or less
- Molded slip design includes anti-pre-set feature and ceramic buttons. **ZERO** metal content.
- Unique, diamond-shaped button configuration grips more casing surface area for a stronger bite.
- Nose cone integrated pump down feature increases surface area by 55%
- Nose cone reverse flow anti-ball seat feature allows flow from below the plug
- Interlocking and clutching features prevent rotation during set and drill-out

- Compatible with industry standard and Yellow Jacket exclusive setting tools

Wireline Adapter Kit

- Ball can be run in place to conserve water, or dropped from the surface
- Thread design eliminates the need for a safety spring
- Increased flow area with larger flow slots
- Fluted wrench surface improves pipe wrench grip
- Anti-preset shear screw

ABOUT YELLOW JACKET OIL TOOLS

Build guns faster and smarter – with tools that are more productive, durable, and safe.

Yellow Jacket Oil Tools is a full-service distributor of downhole completion tools and oilfield perforating systems, specialized in building tools that improve wireline performance, enhance safety, and stretch our clients' dollar as far as it can go.

Time is critical in downhole operations. Rapid and reliable response from primary suppliers is vital to the success of any wireline operation, and anticipating what tools are required for tomorrow's job can be difficult.

Our knowledgeable sales team is on call 24/7, ready to field your call and deliver the right tools, right away. Many deliveries are made through Regional Distribution Warehouses strategically located in each major oil producing region. Yellow Jacket Oil Tools is a division of G&H Diversified Manufacturing, LP, an ISO 9001:2015 certified, American-owned advanced contract manufacturer, serving a range of industries since 1958.

Convenient Distribution

When you need tools, you need them fast. Major US shale plays are served by the Yellow Jacket warehouses shown here:
